CALIFORNIA ACCOUNTABILITY

The state's education officials measure schools' performance using students' test scores. They combine standardized test results and measure progress year to year to calculate each school's Academic Performance Index (API).

Academic Performance Index (API)	971
Growth attained from prior year	-6
Met schoolwide growth target	Yes
Met growth targets for all groups of students	Yes

API

The API is California's way of rating schools. Using student test scores, the API places schools on a scale from 200 to 1000. Our school's API was 971, compared with 810 for the average elementary school (shown in gray in the graph below). The state expects schools to attain an API of 800 eventually. Each major subgroup of students in our school also receives an API.

California Standards Tests

This series of tests is based on what California students are expected to know and learn at each grade level. You'll find students' test scores summarized in five bands below. They range from the lowest scores on the left to the highest scores on the right. The top two bands—Proficient and Advanced—are expressed as a combined percentage. Our students' scores are compared with the scores of all students in California at the same grade level to help you see where we stand.

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):
 FAR BELOW BASIC (Red), BELOW BASIC (Orange), BASIC (Yellow), PROFICIENT (Light Blue), ADVANCED (Dark Blue)

SUBJECT	PERCENT PROFICIENT OR HIGHER	LOW SCORES	HIGH SCORES
English/Language Arts (Reading and Writing)			
Our school	90%		
Calif. elementary schools	57%		
Math			
Our school	93%		
Calif. elementary schools	63%		
Science			
Our school	93%		
Calif. elementary schools	57%

FEDERAL ACCOUNTABILITY

The federal standard differs from California's. It requires schools to meet Adequate Yearly Progress (AYP). The AYP includes students' scores and participation rates on California's math and English/language arts standardized tests and the school's API. If a school doesn't meet one of these criteria two years in a row, it is put in Program Improvement.

Made Adequate Yearly Progress (AYP)	No
Number of AYP targets met	12
Number of AYP targets school was required to meet	13
Is the school in Program Improvement (PI)?	No

This year, schools are expected to help 89 percent of their students score Proficient or higher on California's English/language arts (ELA) and math tests. This goal rises every year until 2014, when 100 percent of students are expected to reach this mark. As a result, increasing numbers of schools are falling short of this goal, and landing on the federal watch list known as Program Improvement.
