School Accountability Report Card, 2012–2013
Arcadia Unified School District

» An annual report to the community about teaching, learning, test results, resources, and measures of progress in our school.

Camino Grove Elementary School

School Accountability Report Card, 2012–2013
Arcadia Unified School District

This School Accountability Report Card (SARC) provides information that can be used to evaluate and compare schools. State and federal laws require all schools to publish a SARC each year.

The information in this report represents the 2012–2013 school year, not the current school year. In most cases, this is the most recent data available. We present our school's results next to those of the average elementary school in the county and state to provide the most meaningful and fair comparisons. To find additional facts about our school online, please use the [DataQuest](#) tool offered by the California Department of Education.

Please note that words that appear in a smaller, bold typeface are links in the online version of this report to more information. You can find a list of those linked words and their Web page URLs at:

http://pub.schoolwisepress.com/sarc/links_2013_en.html

Reports about other schools are available on the [California Department of Education Web site](#). Internet access is available in local libraries.

If you have any questions related to this report, or would like to request a hardcopy version, please contact our school office.

Camino Grove Elementary School

School Accountability Report Card, 2012–2013
Arcadia Unified School District

» Principal's Message

Camino Grove School is a community where the people make a difference! We strive to provide all of our students with a rigorous education program. Our high-quality instructional program is designed to meet the diverse academic and social needs of our students in a dynamic learning environment that will better prepare them to master the Common Core State Standards and maximize their ability to be college and career ready. Our staff is highly trained and dedicated to making a difference in the lives of our students. They are committed to the idea that learning is the shared responsibility of faculty, students, families, and community. Teachers collaborate weekly and work in teams during early-release Wednesdays to promote achievement and provide challenging experiences for all students. Teachers participate in professional conferences, staff development workshops, and learning walks to acquire new strategies to meet the diverse needs of our students.

Students see each other in a positive light as they exhibit leadership, personal responsibility, and respect for self and others. We take pride in the high degree of parent involvement at Camino Grove School. Our parents provide leadership through participation on the School Site Council, English Language Advisory Committee, and PTA. Parents can be seen throughout the day volunteering in classrooms, working in the copy center, or assisting with student drop off to benefit our children.

Construction was a big focus during the 2012–2013 school year. Construction was completed in August 2013. Each classroom has been updated with new technology including smart boards, document cameras, and projectors. The Multipurpose Room was updated and air conditioning was added to the building as well as new lighting and speakers. The main office building was renovated and new landscaping was added through out the campus. Finally, security gates were installed around the campus to provide greater safety for students.

These reasons and many more make Camino Grove School a place committed to excellence, meeting the needs of the students and community with great enthusiasm and excitement!

Danae Popovich, PRINCIPAL

Academic Performance Index

932

County Average: 812
State Average: 810

Student enrollment

654

County Average: 586
State Average: 534

Major Achievements

- We are very proud of our students and the growth they exhibit. Students continue to perform exceedingly well on district and standardized tests. Our Academic Performance Index (API) is calculated using the test scores from the state standardized tests given annually to every student at Camino Grove in second through fifth grade.
- This year all teachers were trained in the Write From the Beginning writing curriculum. This is a district-wide implementation. As well, several teachers at Camino Grove were trained as trainer of trainers for the Write From the Beginning program. The trainers are responsible for providing continuous on-site support and training. As a result, time for collaboration is more focused on student learning and instructional strategies than ever before.
- The commitment to provide a standards-based curriculum with individualized instruction is helping our students understand important concepts and apply their learning to real-world problems. Working on assignments that challenge students to higher levels of thinking has increased students' confidence and contributed to higher scores on standardized tests.

Focus for Improvement

- Camino Grove will use data-based assessments to target instruction to meet the needs of all students and ensure a value-added, standards-based instructional program, as measured by Dynamic Indicators of Basic Early Literacy Skills (DIBELS), Curriculum Based Measure for Reading Comprehension (CBM-MAZE), district and grade-level assessments, and California Standards Tests (CST).
- We will continue to use data-based assessments to identify students who are having difficulties in reading, writing, and math. Using the Response to Intervention and Instruction (RTI2) model, CORE-PLUS, financial resources, and specialized personnel, we will target intervention and skills-based instructional strategies for those students identified as needing intervention to meet their academic goals.
- Our school-wide strategies to improve reading fluency, reading comprehension, and English language development will be continued.
- Teachers school-wide began to implement the Write from the Beginning program helping students achieve proficiency in the area of writing, demonstrated through classroom, district, and state writing assessments. All teachers were trained in the program and will receive further training over the next two years until the program is fully implemented.

MEASURES OF PROGRESS

Academic Performance Index

The Academic Performance Index (API) is California’s way of comparing schools based on student test scores. The index was created in 1999 to help parents and educators recognize schools that show progress and identify schools that need help. It is also used to compare schools in a statewide ranking system. The California Department of Education (CDE) calculates a school’s API using student test results from the California Standards Tests and, for high schools, the California High School Exit Exam (CAHSEE). APIs range from 200 to 1000. The CDE expects all schools to eventually obtain APIs of at least 800. [Additional information on the API](#) can be found on the CDE Web site.

Camino Grove’s API was 932 (out of 1000). This is a decline of 15 points compared with last year’s API. All students took the test. You can find three years of detailed API results in the Data Almanac that accompanies this report.

API RANKINGS: Based on our 2011–2012 test results, we started the 2012–2013 school year with a base API of 947. The state ranks all schools according to this score on a scale from 1 to 10 (10 being highest). Compared with all elementary schools in California, our school ranked 10 out of 10.

SIMILAR SCHOOL RANKINGS: We also received a second ranking that compared us with the 100 schools with the most similar students, teachers, and class sizes. Compared with these schools, our school ranked 3 out of 10. The CDE recalculates this factor every year. To read more about the specific elements included in this calculation, refer to the [CDE Web site](#).

API GROWTH TARGETS: Each year the CDE sets specific API “growth targets” for every school. It assigns one growth target for the entire school, and it sets additional targets for ethnic groups, English Learners, special education students, or socioeconomic subgroups of students that make up a significant portion of the student body. Schools are required to meet all of their growth targets. If they do, they may be eligible to apply for awards through the California School Recognition Program and the Title I Achieving Schools Program.

We met our assigned growth targets during the 2012–2013 school year. Just for reference, 48 percent of elementary schools statewide met their growth targets.

CALIFORNIA API ACADEMIC PERFORMANCE INDEX	
Met schoolwide growth target	Yes
Met growth target for prior school year	Yes
API score	932
Growth attained from prior year	-15
Met subgroup* growth targets	Yes

SOURCE: API based on spring 2013 test cycle. Growth scores alone are displayed and are current as of December 2013.

*Ethnic groups, English Learners, special ed students, or socioeconomic groups of students that make up 15 percent or more of a school’s student body. These groups must meet AYP and API goals. N/A - Results not available.

API, Spring 2013

SOURCE: API based on spring 2013 test cycle. State average represents elementary schools only.
NOTE: Only groups of students that represent at least 15 percent of total enrollment are calculated and displayed as student subgroups.

Adequate Yearly Progress

In addition to California’s accountability system, which measures student achievement using the API, schools must also meet requirements set by the federal education law known as **No Child Left Behind** (NCLB). This law requires all schools to meet a different goal: **Adequate Yearly Progress** (AYP).

We met 12 out of 17 criteria for yearly progress. Because we fell short in five areas, we did not make AYP.

To meet AYP, elementary schools must meet three criteria. First, a certain percentage of students must score at or above Proficient levels on the California Standards Tests (CST), the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA): 89.2 percent on the English/language arts test and 89.5 percent on the math test. All ethnic, English Learners, special education, and socioeconomic subgroups of students also must meet these goals. Second, the schools must achieve an API of at least 770 or increase the API by one point from the prior year. Third, 95 percent of the student body must take the required standardized tests.

If even one subgroup of students fails to meet just one of the criteria, the school fails to meet AYP. While all schools must report their progress toward meeting AYP, only schools that receive federal funding to help economically disadvantaged students are actually penalized if they fail to meet AYP goals. Schools that do not make AYP for two or more years in a row in the same subject enter **Program Improvement** (PI). They must offer students transfers to other schools in the district and, in their second year in PI, tutoring services as well.

FEDERAL AYP ADEQUATE YEARLY PROGRESS	
Met AYP	No
Met schoolwide participation rate	Yes
Met schoolwide test score goals	No
Met subgroup* participation rate	Yes
Met subgroup* test score goals	No
Met schoolwide API for AYP	Yes
Program Improvement school in 2013	No

SOURCE: AYP is based on the Accountability Progress Report of September 2013. A school can be in Program Improvement based on students’ test results in the 2012–2013 school year or earlier.

*Ethnic groups, English Learners, special ed students, or socioeconomic groups of students that make up 15 percent or more of a school’s student body. These groups must meet AYP and API goals. N/A - Results not available.

SOURCE: AYP release of September 2013, CDE.

The table at left shows our success or failure in meeting AYP goals in the 2012–2013 school year. The green dots represent goals we met; red dots indicate goals we missed. Just one red dot means that we failed to meet AYP.

NOTE: Dashes indicate that too few students were in the category to draw meaningful conclusions. Federal law requires valid test scores from at least 50 students for statistical significance.

STUDENT ACHIEVEMENT

Here you'll find a three-year summary of our students' scores on the California Standards Tests (CST) in selected subjects. We compare our students' test scores with the results for students in the average elementary school in California. On the following pages we provide more detail for each test, including the scores for different subgroups of students. In addition, we provide links to the California Content Standards on which these tests are based. If you'd like more information about the CST, please contact our principal or our teaching staff. To find [grade-level-specific scores](#), you can refer to the Standardized Testing and Reporting (STAR) Web site. Other tests in the [STAR program](#) can be found on the California Department of Education (CDE) Web site.

California Standards Tests

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):

■ FAR BELOW BASIC ■ BELOW BASIC ■ BASIC ■ PROFICIENT ■ ADVANCED

SOURCE: The scores for the CST are from the spring 2013 test cycle. State average represents elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile complete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.

Frequently Asked Questions About Standardized Tests

HAVE THE CALIFORNIA STANDARDS TESTS KEPT UP WITH THE CHANGES IN WHAT WE TEACH? In two subjects, the answer is “yes,” and in two more the answer is “no.” The Common Core transition is the reason for this. The test questions in math and English/language arts in 2012–13 were likely to be less well aligned with the official standards for California curriculum than they were three years ago. But the test questions in social studies and science were just as well aligned in 2012–13 as they were in the past.

WHERE CAN I FIND GRADE-LEVEL REPORTS? Due to space constraints and concern for statistical reliability, we have omitted grade-level detail from these test results. Instead we present results at the schoolwide level. You can view the results of far more students than any one grade level would contain, which also improves their statistical reliability. Grade-level results are online on the [STAR Web site](#). More information about student test scores is available in the Data Almanac that accompanies this report.

WHAT DO THE FIVE PROFICIENCY BANDS MEAN? Test experts assign students to one of these five proficiency levels, based on the number of questions they answer correctly. Our immediate goal is to help students move up one level. Our eventual goal is to enable all students to reach either of the top two bands, Advanced or Proficient. Those who score in the middle band, Basic, have come close to attaining the required knowledge and skills. Those who score in either of the bottom two bands, Below Basic or Far Below Basic, need more help to reach the Proficient level.

HOW HARD ARE THE CALIFORNIA STANDARDS TESTS? Experts consider California’s standards to be among the most clear and rigorous in the country. Just 57 percent of elementary school students scored Proficient or Advanced on the English/language arts test; 63 percent scored Proficient or Advanced in math. You can review the [California Content Standards](#) on the CDE Web site.

ARE ALL STUDENTS’ SCORES INCLUDED? No. Only students in grades two through eleven are required to take the CST. When fewer than 11 students in one grade or subgroup take a test, state officials remove their scores from the report. They omit them to protect students’ privacy, as called for by federal law.

CAN I REVIEW SAMPLE TEST QUESTIONS? Sample test questions for the CST are on the [CDE’s Web site](#). These are actual questions used in previous years.

WHERE CAN I FIND ADDITIONAL INFORMATION? The CDE has a wealth of resources on its Web site. The STAR Web site publishes detailed reports for schools and districts, and assistance packets for parents and teachers. This site includes explanations of [technical terms](#), scoring methods, and the [subjects](#) covered by the tests for each grade. You’ll also find a [guide](#) to navigating the STAR Web site as well as help for understanding how to [compare test scores](#).

English/Language Arts (Reading and Writing)

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):

■ FAR BELOW BASIC ■ BELOW BASIC ■ BASIC ■ PROFICIENT ■ ADVANCED

GROUP	LOW SCORES	HIGH SCORES	PROFICIENT OR ADVANCED	STUDENTS TESTED	COMMENTS
SCHOOLWIDE AVERAGE			85%	96%	SCHOOLWIDE AVERAGE: About 28 percent more students at our school scored Proficient or Advanced than at the average elementary school in California.
AVERAGE ELEMENTARY SCHOOL IN THE COUNTY			56%	94%	
AVERAGE ELEMENTARY SCHOOL IN CALIFORNIA			57%	94%	

Subgroup Test Scores

BAR GRAPHS BELOW SHOW TWO PROFICIENCY GROUPS (LEFT TO RIGHT):

■ FAR BELOW BASIC, BELOW BASIC, AND BASIC ■ PROFICIENT AND ADVANCED

GROUP	LOW SCORES	HIGH SCORES	PROFICIENT OR ADVANCED	STUDENTS TESTED	COMMENTS
Boys			83%	245	GENDER: About four percent more girls than boys at our school scored Proficient or Advanced.
Girls			87%	230	
English proficient			90%	402	ENGLISH PROFICIENCY: English Learners scored lower on the CST than students who are proficient in English. Because we give this test in English, English Learners tend to be at a disadvantage.
English Learners			55%	73	
Low income			69%	94	INCOME: About 20 percent fewer students from lower-income families scored Proficient or Advanced than our other students.
Not low income			89%	379	
Learning disabled	NO DATA AVAILABLE		N/A	25	LEARNING DISABILITIES: We cannot compare scores for these two subgroups because the number of students tested with learning disabilities was either zero or too small to be statistically significant.
Not learning disabled			86%	450	
Asian American			91%	334	ETHNICITY: Test scores are likely to vary among students of different ethnic origins. The degree of variance will differ from school to school. Measures of the achievement gap are beyond the scope of this report.
Hispanic/Latino			50%	51	
White/Other			84%	67	

SOURCE: The scores for the CST are from the spring 2013 test cycle. County and state averages represent elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile complete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.
 N/A: Not applicable. Either no students took the test, or to safeguard student privacy the CDE withheld all results because very few students took the test in any grade.
 N/S: Not statistically significant. While we have some data to report, we are suppressing it because the number of valid test scores is not large enough to be meaningful.

The graph to the right shows how our students' scores have changed over the years. We present each year's results in a vertical bar, with students' scores arrayed across five proficiency bands. When viewing schoolwide results over time, remember that **progress** can take many forms. It can be more students scoring in the top proficiency bands (blue); it can also be fewer students scoring in the lower two proficiency bands (brown and red).

You can read the California standards for [English/language arts](#) on the CDE's Web site.

 N/S: Not statistically significant. While we have some data to report, we are suppressing it because the number of valid test scores is not large enough to be meaningful.

The graph to the right shows how our students' scores have changed over the years. We present each year's results in a vertical bar, with students' scores arrayed across five proficiency bands. When viewing schoolwide results over time, remember that **progress** can take many forms. It can be more students scoring in the top proficiency bands (blue); it can also be fewer students scoring in the lower two proficiency bands (brown and red).

The science standards test was administered only to fifth graders. Of course, students in all grade levels study science in these areas: physical science, life science, earth science, and investigation and experimentation. For background, you can review the **science standards** by going to the CDE's Web site.

Other Measures of Student Achievement

In addition to standardized test results, we use informal classroom observations, homework, class work, quizzes, and end-of-unit tests. Teachers administer the Dynamic Indicators of Basic Early Literacy Skills (DIBELS) assessment multiple times a year to monitor and evaluate students' reading, fluency, and comprehension levels. Students keep portfolios of their written work as evidence of their growth as writers. Our English Learners take the California English Language Development Test (CELDT) every year. Some learning-disabled students take the California Modified Assessment (CMA) instead of the California Standards Test (CST).

At the beginning, middle, and end of each school year, our students take district writing and language arts assessments, which measure the degree to which they are meeting our own rigorous learning standards. Students set academic goals each trimester with their teacher and parents. We hold student-led conferences in the fall and spring where students exhibit their level of mastery of the academic standards to their parents. A Student Success Team is also used to monitor progress. As a function of general education, this team consists of the principal, parent, teacher, ELD teacher, teacher on special assignment, resource specialist program (RSP) teacher, and any other support personnel that works with the individual student (psychologist, counselor, or speech and language therapist). The team meets on an as-needed basis to monitor and make adjustments in students' educational programs in order to ensure their individual needs are met and adequate progress is made.

STUDENTS

Students’ English Language Skills

At Camino Grove, 85 percent of students were considered to be proficient in English, compared with 70 percent of elementary school students in California overall.

LANGUAGE SKILLS	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
English-proficient students	85%	68%	70%
English Learners	15%	32%	30%

SOURCE: Language census for the 2012–2013 school year. County and state averages represent elementary schools only.

Languages Spoken at Home by English Learners

Please note that this table describes the home languages of just the 96 students classified as English Learners. At Camino Grove, the language these students most often speak at home is Mandarin (Putonghua). In California it’s common to find English Learners in classes with students who speak English well. When you visit our classrooms, ask our teachers how they work with language differences among their students.

LANGUAGE	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Spanish	10%	88%	84%
Vietnamese	4%	1%	3%
Cantonese	23%	1%	1%
Hmong	0%	0%	1%
Filipino/Tagalog	0%	1%	1%
Korean	3%	1%	1%
Khmer/Cambodian	0%	0%	0%
All other	60%	8%	9%

SOURCE: Language census for the 2012–2013 school year. County and state averages represent elementary schools only.

Ethnicity

Most students at Camino Grove identify themselves as Asian/Pacific Islander. In fact, there are about five times as many Asian/Pacific Islander students as White students, the second-largest ethnic group at Camino Grove. The state of California allows citizens to choose more than one ethnic identity, or to select “two or more races” or “decline to state.” As a consequence, the sum of all responses rarely equals 100 percent.

ETHNICITY	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
African American	2%	8%	6%
Asian American/Pacific Islander	71%	10%	11%
Hispanic/Latino	13%	66%	54%
White	14%	14%	25%

SOURCE: California Longitudinal Pupil Achievement Data System (CALPADS), October 2012. County and state averages represent elementary schools only.

Family Income and Education

The free or reduced-price meal subsidy goes to students whose families earned less than \$42,643 a year (based on a family of four) in the 2012–2013 school year. At Camino Grove, 19 percent of the students qualified for this program, compared with 61 percent of students in California.

FAMILY FACTORS	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Low-income indicator	19%	69%	61%
Parents with some college	92%	51%	58%
Parents with college degree	78%	29%	34%

SOURCE: The free and reduced-price lunch information is gathered by most districts in October. This data is from the 2012–2013 school year. Parents’ education level is collected in the spring at the start of testing. Rarely do all students answer these questions.

The parents of 92 percent of the students at Camino Grove have attended college and 78 percent have a college degree. This information can provide some clues to the level of literacy children bring to school. One precaution is that the students themselves provide this data when they take the battery of standardized tests each spring, so it may not be completely accurate. About 72 percent of our students provided this information.

CLIMATE FOR LEARNING

Average Class Sizes

Because funding for class-size reduction was focused on the early grade levels, our school’s class sizes, like those of most elementary schools, differ across grade levels.

The average class size at Camino Grove varies across grade levels from a low of 20 students to a high of 30. Our average class size schoolwide is 24 students.

AVERAGE CLASS SIZE BY GRADE	OUR SCHOOL	OUR DISTRICT
Kindergarten	30	24
First grade	26	21
Second grade	22	21
Third grade	20	20
Fourth grade	25	25
Fifth grade	25	27

SOURCE: California Department of Education, SARC Research File. District averages represent elementary schools only.

Safety

To safeguard the well-being of students and staff, a comprehensive School Site Safety Plan has been developed by the Safety and Disaster Committee, which consists of classified staff, teachers, and the principal. The Safety and Disaster Committee meets to set long-term goals for the school and assists in upgrading the school facilities. The Safety Plan is updated each winter and covers various safety issues including playground supervision, disaster kits, and emergency procedures. The Safety Plan is reviewed with all staff members at the beginning of each school year. We hold safety drills on a regular basis, fire drills are held monthly, earthquake drills yearly, and intruder/lockdown drills annually.

To ensure student safety, teachers, administrators, and school proctors supervise students before and after school, during recess and lunch. Any visitors to the campus are required to check in at the school’s main office and must wear the proper identification badge at all times.

In addition the principal, one teacher, and custodian attended a conference on active shooters. The information gathered at this conference was brought back to the teachers and new procedures were developed that specifically address an active shooter situation.

As part of our facilities upgrade, security gates were added to the school, allowing visitors to only enter through the school office.

Discipline

Students at Camino Grove Elementary School are guided by specific rules and classroom expectations that promote respect, cooperation, courtesy, and acceptance of others. Parents are informed of school and classroom activities and policies through the Parent Handbook, the school web page (www.ausd.net/camino), periodic newsletters, email, and school flyers.

A committee consisting of parents and staff establishes school discipline policies, which are communicated to all students and parents. The school handbook, which is sent home at the beginning of each school year, outlines students’ rights and responsibilities, basic rules, and unacceptable behavior. The handbook also contains policies on attendance, campus access/visitation, homework, uniform guidelines, traffic control, and the disaster plan. Classroom rules are posted and grade-level assemblies are held to discuss safety. Students assist with the development of classroom standards. Caught Being Good tickets are given out daily to students who are following the rules and are modeling good choices. Camino Grove utilizes the six pillars of character outlined in the Character Counts program. Character education lessons are taught in the classroom and presented at assemblies. The purpose of these lessons is to help students develop strong character skills that will help them be productive members of society.

Homework

Arcadia Unified School District has a comprehensive homework policy in place. The Governing Board believes homework is an important part of the instructional program and is a valuable tool to support students’ efforts to master grade-level content standards. Homework is defined as school-related assignments that enhance or reinforce concepts taught in the classroom and that require time and effort outside the regular school day for successful completion. Homework is designed to serve specific purposes, which include developing good study habits, promoting independent learning, preparing for upcoming instruction, and practicing or reviewing lessons taught in class.

Schedule

The school year begins in late August and ends the second week of June. Arcadia Unified School District's traditional number of instructional days is 180. First through fifth grade classes begin at 8:25 a.m. and end at 2:35 p.m., except for early-release Wednesdays when classes end at 1:45 p.m. On occasional minimum days classes end at 12:27 p.m. Kindergarten has two sessions. The morning session begins at 8:25 a.m. and ends at 11:55 a.m., except for early-release Wednesdays when classes end at 11:25 a.m. The midmorning session begins at 10:25 a.m. and ends at 2:35 p.m., except for early-release Wednesdays when classes run from 10:15 a.m. until 1:45 p.m. Midmorning students have lunch on campus.

Office hours are from 7:30 a.m. to 4 p.m. Arcadia Unified School District's extended-daycare program, Shining Stars, has a facility at Camino Grove Elementary School. For a monthly fee, students who attend Camino Grove can enroll in this program. The Shining Stars program opens at 7 a.m., is closed during school hours, and reopens after school until 6 p.m.

Parent Involvement

Parents and the community are very supportive of the educational programs at Camino Grove Elementary School. We encourage them to participate in all aspects of the school's program, including volunteering at the school and in the classroom as well as in the PTA. There is a high degree of parent involvement at Camino Grove Elementary School. Our active PTA is engaged in fund-raising activities and in promoting family involvement in the school and community through programs and events such as Family Fun Night, the annual school carnival, Bring Your Parents to Lunch Day, Back-to-School Night, book fairs, and Open House. The school has also created local community partnerships with the Arcadia Public Library, Arcadia Rotary Club, the Arcadia Educational Foundation, American Legion, and the Arcadia Lion's Club. For more information about volunteering at the school, contact Anne Joseph, School Office Supervisor, at (626) 821-8353.

LEADERSHIP, TEACHERS, AND STAFF

Leadership

Mrs. Danae Popovich served as the principal of Camino Grove during the 2012–2013 school year. She has 17 years of classroom experience, five of which she spent as a teacher on special assignment. She is currently in her second year as principal of Camino Grove.

Leadership at Camino Grove Elementary School is a responsibility shared among the district administration, school principal, instructional staff, students, and parents. Many groups help to make decisions that affect our school. Parent volunteers, the administration, and staff compose the School Site Council, which makes important budgetary decisions based on the school improvement plan. Our English Language Advisory Committee (ELAC) includes parents of English Learners and one bilingual teacher in English and Chinese. ELAC helps shape our program for English Learners. Our Leadership Team, made up of the principal, one teacher from each grade level, and one teacher from the special services team, gathers input from classroom teachers and analyzes data to make decisions regarding the effectiveness of our programs.

Indicators of Teachers Who May Be Underprepared

KEY FACTOR	DESCRIPTION	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Core courses taught by a teacher not meeting NCLB standards	Percentage of core courses not taught by a “highly qualified” teacher according to federal standards in NCLB	0%	N/A	0%
Fully credentialed teachers	Percentage of staff holding a full, clear authorization to teach at the elementary or secondary level	100%	N/A	N/A
Teachers lacking a full credential	Percentage of teachers without a full, clear credential	0%	N/A	N/A

SOURCE: This information provided by the school district. Data on NCLB standards is from the California Department of Education, SARC research file.

PLEASE NOTE: Comparative data (county average and state averages) for some of the data reported in the SARC is unavailable as of December 2013.

“HIGHLY QUALIFIED” TEACHERS: The federal law known as No Child Left Behind (NCLB) requires districts to report the number of teachers considered to be “highly qualified.” These “highly qualified” teachers must have a full credential, a bachelor’s degree, and, if they are teaching a core subject (such as reading, math, science, or social studies), they must also demonstrate expertise in that field. The table above shows the percentage of core courses taught by teachers who are considered to be less than “highly qualified.” There are exceptions, known as the [High Objective Uniform State Standard of Evaluation \(HOUSSE\)](#) rules, that allow some veteran teachers to meet the “highly qualified” test who wouldn’t otherwise do so.

CREDENTIAL STATUS OF TEACHERS: Teachers who lack full credentials are working under the terms of an emergency permit, an internship credential, or a waiver. They should be working toward their credential, and they are allowed to teach in the meantime only if the school board approves. None of our teachers was working without full credentials.

More facts about our teachers, called for by the Williams legislation of 2004, are available on our Accountability Web page, which is accessible from our district Web site. You will find specific facts about [misassigned teachers](#) and [teacher vacancies](#) in the 2013–2014 school year.

Districtwide Distribution of Teachers Who Are Not “Highly Qualified”

Here, we report the percentage of core courses in our district whose teachers are considered to be less than “highly qualified” by NCLB’s standards. We show how these teachers are distributed among schools according to the percentage of low-income students enrolled.

When more than 40 percent of the students in a school are receiving subsidized lunches, that school is considered by the California Department of Education to be a school with higher concentrations of low-income students. When less than 25 percent of the students in a school are receiving subsidized lunches, that school is considered by the CDE to be a school with lower concentrations of low-income students.

DISTRICT FACTOR	DESCRIPTION	CORE COURSES NOT TAUGHT BY HQT IN DISTRICT
Districtwide	Percentage of core courses not taught by “highly qualified” teachers (HQT)	1%
Schools with more than 40% of students from lower-income homes	Schools whose core courses are not taught by “highly qualified” teachers	0%
Schools with less than 25% of students from lower-income homes	Schools whose core courses are not taught by “highly qualified” teachers	1%

SOURCE: Data is from the California Department of Education, SARC research file.

Staff Development

The district designates time for staff collaboration, planning, and professional development. Staff development days enable staff members to deliver curriculum and instruction that is rigorous, challenging, and responsive to student needs. The staff also utilizes collaboration time and learning walks as a means to further explore sound instructional strategies and implement new curriculum. Staff members are trained in topics such as Thinking Maps, Write from the Beginning, instructional strategies and software usage, integration of differentiation through the use of the Depth and Complexity icons, Response to Instruction and Intervention (RTI2) and strategies for strengthening the core. Teachers are also trained in writing strategies with the focus on sentence fluency. Data is used to create school-wide plans and goals for the Single Plan for Student Achievement and to set classroom and grade-level goals. The Beginning Teachers Support and Assessment program and district literacy coaches provide support for staff development.

YEAR	PROFESSIONAL DEVELOPMENT DAYS
2012–2013	1.0
2011–2012	1.0
2010–2011	3.0

SOURCE: This information is supplied by the school district.

Evaluating and Improving Teachers

A constructive evaluation process promotes quality instruction and is a fundamental element in a sound educational program. Evaluations and formal observations are designed to encourage common goals and to comply with the state’s evaluation criteria and district policies. The principal, who has been trained and certified to conduct teacher evaluations, assesses temporary and probationary teachers annually and tenured teachers every other year. Teachers are assessed on their performance of district-adopted criteria, which includes engaging and supporting all students in learning, understanding and organizing subject matter; assessing student learning; creating and maintaining effective environments for student learning; planning instruction and designing learning experiences for all students; and developing as a professional educator.

Substitute Teachers

The district employs qualified substitute teachers and has an adequate pool of fully credentialed substitutes. If a substitute is unavailable, the administrative or support staff will fill in for the absent teacher.

Specialized Resource Staff

The table to the right lists the number of full-time equivalent qualified support personnel who provide counseling and other pupil support services in our school. These specialists often work part time at our school and some may work at more than one school in our district. For more details on [statewide ratios of counselors, psychologists, or other pupil services](#) staff to students, see the California Department of Education (CDE) Web site. [Library facts](#) and frequently asked questions are also available there.

STAFF POSITION	STAFF (FTE)
Academic counselors	0.3
Behavioral/career counselors	0.0
Librarians and media staff	0.0
Psychologists	0.4
Social workers	0.0
Nurses	0.0
Speech/language/hearing specialists	0.6
Resource specialists	1.0

SOURCE: Data provided by the school district.

Specialized Programs and Staff

Students are encouraged to participate in the school’s academic and extracurricular activities, which are an integral part of the educational program. These programs promote positive attitudes, encourage achievement, and aid in the prevention of behavioral problems. Camino Grove Elementary School offers the following extracurricular activities: Student Council, Red Cross Week, Red Ribbon Week, Family Fun Nights, media monitors, afterschool recreation program (sports and daycare), and instrumental music instruction (for fourth and fifth graders).

Special Education Program

We have one Resource Specialist Program (RSP) teacher and one assistant who work with our special education students. We have a speech therapist four days a week and a psychologist who is assigned to two schools. Resource students stay in the general education classroom as much as possible but come to the RSP classroom to work in small groups or one-on-one according to their Individualized Education Plan (IEP). In the general education classroom they receive accommodations based on the student’s IEP, such as more time to take tests, sitting close to the teacher, or modified homework. Our resource students have mild or moderate learning differences such as visual or auditory processing difficulties and language delays. We have one Special Day Class for students who qualify to receive more intense specialized services.

English Learner Program

We have one full-time teacher certified in Cross-cultural Language and Academic Development (CLAD) who works with our English Learners in small groups according to skill level. The teacher teaches English Language Development (ELD) intensively for 90 minutes four days a week to beginning English Learners. All of our teachers have attended trainings that address ways to present subject matter to English Learners. We encourage the parents of English Learners to join our English Learner Advisory Committee (ELAC). We depend on the ELAC to help improve and expand our ELD program as our English Learner population continues to grow.

RESOURCES

Buildings

Camino Grove Elementary School was built in 1953 and provides a safe, clean environment for students, staff, and volunteers. The district administers a scheduled maintenance program to ensure that all classrooms and facilities are well maintained. All schools in the Arcadia Unified School District were completely modernized in 1995–1996. As a result of Measure I passing by strong voter response in November 2006, Camino Grove is undergoing major renovations, which began in the summer of 2011. This project was completed in August of 2013. The renovations included cutting-edge technology in each classroom to enhance interactive instruction and learning, a new student-services building, air-conditioning in the multipurpose room, and upgraded rest rooms, electrical, plumbing, and drainage. Camino Grove Elementary School campus currently has 34 classrooms, a staff room, a library/multimedia center, a multipurpose room, and two playgrounds. At the time of this publication, 100 percent of the school's restrooms were fully functioning and have been completely renovated.

More facts about the [condition of our school buildings](#) are available in an online supplement to this report called for by the Williams legislation of 2004. What you will find is an assessment of more than a dozen aspects of our buildings: their structural integrity, electrical systems, heating and ventilation systems, and more. The important purpose of this assessment is to determine if our buildings and grounds are safe and in good repair. If anything needs to be repaired, this assessment identifies it and targets a date by which we commit to make those repairs. The guidelines for this assessment were written by the [Office of Public School Construction](#) (OPSC) and were brought about by the Williams legislation. You can look at the six-page [Facilities Inspection Tool](#) used for the assessment on the Web site of the OPSC.

Library

We have a spacious library/media center that holds approximately 10,000 volumes and has 32 student computer stations and one video-editing station. The school library/media center is staffed by a part-time library/media assistant and is stocked with an excellent selection of books and resource materials for all elementary grade levels. Students visit the library/media center at least once a week with their classroom teachers. Computer resources within the library are connected to the internet, so students are able to access information online to improve their research skills. Resources in the library/media center include DVDs, AlphaSmart keyboards, laptop carts, an LCD projector, audio books, listening centers, and an array of books and literature.

Computers

Arcadia Unified School District believes that technology is a resource for learning that must be readily accessible to all students and staff. All teachers have access to email and the internet, and they use computers to keep attendance, record grades, and correspond with parents and colleagues. Ongoing training on the integration of technology into the classroom is also provided for teachers.

Computer skills and concepts integrated throughout standard curriculum prepare students for technological growth and opportunities. All classrooms at Camino Grove Elementary School are equipped with four to six computers with internet access. In addition, the school's media center is equipped with 32 computers and is staffed by a part-time library/media assistant. In addition another room is equipped with 26 computers and can function as a primary lab freeing up the library lab for more upper grade usage. The school also has a mobile computer lab with 30 laptops for classroom use and 64 chrome books. Students receive computer-assisted instruction on a regular basis. Software commonly used includes Microsoft Word, PowerPoint, Excel, Ultimate Writing Center, My Access, United Streaming, Accelerated Reader, and Google Drive. Additionally, fifth grade students have the opportunity to access live weather data by connecting through Arcadia High School.

Textbooks

We choose our textbooks from lists that have already been approved by state education officials. For a list of some of the textbooks we use at our school, see the Data Almanac that accompanies this report.

We have also reported additional facts about our textbooks called for by the Williams legislation of 2004. This online report shows whether we had a textbook for each student in each core course during the 2013–2014 school year and whether those [textbooks](#) covered the California Content Standards.

Curriculum and the Transition to the Common Core

For many years, panels of scholars have decided what California students should learn and be able to do. Their decisions are known as the California Content Standards, and they apply to all public schools in the state. The

textbooks we use and the tests we give are based on these content standards, and we expect our teachers to be firmly focused on them. Policy experts, researchers, and educators consider our state’s standards to be among the most rigorous and challenging in the nation.

In 2010, California’s State Board of Education voted to redefine what we teach. We are calling this the Common Core curriculum, because it is common or shared among schools in most states, and because it affects the core subjects. In 2012–2013, our district’s teachers were already delivering a somewhat different curriculum in math and English/language arts. Changes to the science standards will follow in 2013–2014.

The [California Department of Education \(CDE\)](#) has published helpful background information about the Common Core curriculum. This includes a helpful [video introduction](#) as well as access to a [handbook for parents](#) of students in kindergarten through eighth grade. The full [math standards](#) are available as well as the standards for [English/language arts](#).

SCHOOL EXPENDITURES

Camino Grove receives limited Title I and Title II funds. These funds contribute to the running of additional intervention programs for students who are at risk of not meeting standards. Our PTA raises funds for field trips, library books, software, and special assemblies. Other funds that are used to provide students with services include class size reduction (kindergarten through third grade), Arcadia Educational Foundation, Title V, and the School Improvement Program.

Spending per Student (2011–2012)

To make comparisons possible across schools and districts of varying sizes, we first report our overall spending per student. We base our calculations on our average daily attendance (ADA), which was 661 students.

We've broken down expenditures by the type of funds used to pay for them. Unrestricted funds can be used for any lawful purpose. Restricted funds, however, must be spent for specific purposes set out by legal requirements or the donor. Examples include funding for instructional materials, economic impact aid, and teacher- and principal-training funds.

TYPE OF FUNDS	OUR SCHOOL	DISTRICT AVERAGE *	SCHOOL VARIANCE	STATE AVERAGE	SCHOOL VARIANCE
Unrestricted funds (\$/student)	\$4,365	\$5,440	-20%	\$5,653	-23%
Restricted funds (\$/student)	\$882	\$1,932	-54%	\$3,083	-71%
TOTAL (\$/student)	\$5,247	\$7,372	-29%	\$8,736	-40%

SOURCE: Information provided by the school district.

* Districts allocate most of their costs to school sites and attribute other costs to the district office. When calculating the district average for school level spending per student, we include these district related costs in the denominator. This will often cause most schools to fall below the district average.

Total Expenditures, by Category (2011–2012)

Here you can see how much we spent on different categories of expenses. We're reporting the total dollars in each category, not spending per student.

CATEGORY	UNRESTRICTED FUNDS	RESTRICTED FUNDS	TOTAL	PERCENTAGE OF TOTAL*
Teacher salaries (all certificated staff)	\$2,127,334	\$376,852	\$2,504,186	72%
Other staff salaries	\$237,274	\$89,569	\$326,843	9%
Benefits	\$483,192	\$87,697	\$570,888	16%
Books and supplies	\$29,784	\$15,061	\$44,845	1%
Equipment replacement	\$0	\$0	\$0	0%
Services and direct support	\$8,209	\$13,807	\$22,016	1%
TOTAL	\$2,885,793	\$582,986	\$3,468,778	

SOURCE: Information provided by the school district.

* Totals may not add up to exactly 100% because of rounding.

Compensation of Staff with Teaching Credentials (2011–2012)

The total of what our certificated staff members earn appears below. A certificated staff person is a school employee who is required by the state to hold teaching credentials, including full-time, part-time, substitute or temporary teachers, and most administrators. You can see the portion of pay that goes to salary and three types of benefits.

To make comparisons possible across schools and districts of varying sizes, we first report our compensation per full-time equivalent (FTE) certificated staff member. A teacher/administrator/pupil services person who works full time counts as 1.0 FTE. Those who work only half time count as 0.5 FTE. We had 29 FTE teachers working in our school.

CATEGORY	OUR SCHOOL	DISTRICT AVERAGE *	SCHOOL VARIANCE	STATE AVERAGE	SCHOOL VARIANCE
Salaries	\$78,374	\$79,802	-2%	\$71,848	9%
Retirement benefits	\$6,473	\$6,588	-2%	\$5,888	10%
Health and medical benefits	\$4,432	\$5,116	-13%	\$10,391	-57%
Other benefits	\$2,119	\$1,480	43%	\$720	194%
TOTAL	\$91,398	\$92,987	-2%	\$88,847	3%

SOURCE: Information provided by the school district.
 * Districts allocate most of their staff costs to school sites, but attribute other staff costs to the district office. One example is a reading resource teacher or librarian who works at all school sites. When calculating the district average for compensation per staff member, we include these district related costs in the denominator. This will often cause most schools to fall below the district average.

Total Certificated Staff Compensation (2011–2012)

Here you can see how much we spent on different categories of compensation. We’re reporting the total dollars in each category, not compensation per staff member.

CATEGORY	TOTAL	PERCENTAGE OF TOTAL*
Salaries	\$2,272,847	86%
Retirement benefits	\$187,727	7%
Health and medical benefits	\$128,528	5%
Other benefits	\$61,453	2%
TOTAL	\$2,650,554	

SOURCE: Information provided by the school district.
 * Totals may not add up to exactly 100% because of rounding.

TECHNICAL NOTE ON DATA RECENCY: All data is the most current available as of December 2013. The CDE may release additional or revised data for the 2012–2013 school year after the publication date of this report. We rely on the following sources of information from the California Department of Education: California Longitudinal Pupil Achievement Data System (CALPADS) (October 2012); Language Census (March 2013); California Standards Tests (spring 2013 test cycle); Academic Performance Index (September 2013 growth score release); Adequate Yearly Progress (September 2013).

DISCLAIMER: School Wise Press, the publisher of this accountability report, makes every effort to ensure the accuracy of this information but offers no guarantee, express or implied. While we do our utmost to ensure the information is complete, we must note that we are not responsible for any errors or omissions in the data. Nor are we responsible for any damages caused by the use of the information this report contains. Before you make decisions based on this information, we strongly recommend that you visit the school and ask the principal to provide the most up-to-date facts available.

rev20131231_19-64261-6011159e/16171

» Adequacy of Key Resources 2013–2014

Here you'll find key facts about our teachers, textbooks, and facilities during the school year in progress, 2013–2014. Please note that these facts are based on evaluations our staff conducted in accordance with the Williams legislation.

TEACHERS

Teacher Vacancies

The Williams legislation asked districts to disclose how frequently full-time teachers were not permanently assigned to a classroom. There are two general circumstances that can lead to the unfortunate case of a classroom without a full-time, permanently assigned teacher. Within the first 20 days of the start of school, we can be surprised by too many students showing up for school, or too few teachers showing up to teach. After school starts, however, teachers can also be surprised by sudden changes: family emergencies, injuries, accidents, etc. When that occurs, it is our school's and our district's responsibility to fill that teacher's vacancy with a qualified, full-time and permanently assigned replacement. For that reason, we report teacher vacancies in two parts: at the start of school, and after the start of school.

KEY FACTOR	2011–2012	2012–2013	2013–2014
TEACHER VACANCIES OCCURRING AT THE BEGINNING OF THE SCHOOL YEAR			
Total number of classes at the start of the year	0	0	0
Number of classes which lacked a permanently assigned teacher within the first 20 days of school	0	0	0
TEACHER VACANCIES OCCURRING DURING THE SCHOOL YEAR			
Number of classes where the permanently assigned teacher left during the year	0	0	0
Number of those classes where you replaced the absent teacher with a single new teacher	0	0	0

NOTES: This report was completed on Friday, November 01, 2013.

Teacher Misassignments

A “misassigned” teacher is one who lacks the appropriate subject-area authorization for a class she is teaching.

Under the terms of the Williams settlement, schools must inform the public of the number of their teachers who are misassigned. It is possible for a teacher who lacks the authorization for a subject to get special permission—in the form of an emergency permit, waiver, or internship authorization—from the school board or county office of education to teach the subject anyway. This permission prevents the teacher from being counted as misassigned.

KEY FACTOR	DESCRIPTION	2011–2012	2012–2013	2013–2014
Teacher Misassignments	Total number of classes taught by teachers without a legally recognized certificate or credential	1	1	0
Teacher Misassignments in Classes that Include English Learners	Total number of classes that include English learners and are taught by teachers without CLAD/BCLAD authorization, ELD or SDAIE training, or equivalent authorization from the California Commission on Teacher Credentialing	1	1	1
Other Employee Misassignments	Total number of service area placements of employees without the required credentials	0	0	0

NOTES: This report was completed on Friday, November 01, 2013.

TEXTBOOKS

The main fact about textbooks that the Williams legislation calls for described whether schools have enough books in core classes for all students. The law also asks districts to reveal whether those books are presenting what the California content standards calls for. This information is far more meaningful when viewed along with the more detailed description of textbooks contained in our School Accountability Report Card (SARC). There you'll find the names of the textbooks used in our core classes, their dates of publication, the names of the firms that published them, and more.

SUBJECT	ARE THERE TEXTBOOKS OR INSTRUCTIONAL MATERIALS IN USE?		ARE THERE ENOUGH BOOKS FOR EACH STUDENT?	
	STANDARDS ALIGNED?	FROM THE MOST RECENT OFFICIAL ADOPTION?	FOR USE IN CLASS?	PERCENTAGE OF STUDENTS HAVING BOOKS TO TAKE HOME?
English	Yes	Yes	Yes	100%
Math	Yes	Yes	Yes	100%
Science	Yes	Yes	Yes	100%
Social Studies	Yes	Yes	Yes	100%
Health Sciences	Yes	Yes	Yes	100%
Visual and Performing Arts	Yes	Yes	Yes	100%

NOTES: This report was completed on Thursday, November 07, 2013. This information was collected on Friday, November 01, 2013.

FACILITIES

To determine the condition of our facilities, our district sent experts from our facilities team to inspect them. They used a survey, called the Facilities Inspection Tool, issued by the Office of Public School Construction. Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

AREA	RATING	DESCRIPTION
OVERALL RATING	Exemplary	Our school meets most or all of the standards for good repair, established by the Office of Public School Construction. If we have any deficiencies, they are not significant. We scored between 99 and 100 percent on the 15 categories of our evaluation.
A. SYSTEMS	Good	
Gas Leaks		No apparent problems.
Mechanical Problems (Heating, Ventilation, and Air Conditioning)		No apparent problems.
Sewer System		No apparent problems.
B. INTERIOR		
Interior Surfaces (Walls, Floors, and Ceilings)	Good	No apparent problems.
C. CLEANLINESS	Good	
Overall Cleanliness		No apparent problems.
Pest or Vermin Infestation		No apparent problems.
D. ELECTRICAL		
Electrical Systems and Lighting	Good	No apparent problems.
E. RESTROOMS/FOUNTAINS	Good	
Bathrooms		No apparent problems.
Drinking Fountains (Inside and Out)		No apparent problems.
F. SAFETY	Good	
Fire Safety (Sprinkler Systems, Alarms, Extinguishers)		No apparent problems.
Hazardous Materials (Lead Paint, Asbestos, Mold, Flammables, etc.)		No apparent problems.
G. STRUCTURAL	Good	
Structural Damage (Cracks in Walls and Foundations, Sloping Ceilings, Posts or Beams Missing)		No apparent problems.

AREA	RATING	DESCRIPTION
Roofs		No apparent problems.
H. EXTERNAL	Good	
Playground/School Grounds		No apparent problems.
Windows, Doors, Gates, Fences (Interior and Exterior)		No apparent problems.
OTHER DEFICIENCIES	N/A	No apparent problems.

INSPECTORS AND ADVISORS: This report was completed on Tuesday, November 19, 2013 by Melinda Williams (Maintenance Supervisor). The facilities inspection occurred on Monday, November 18, 2013. We employed the following staff or businesses in completing this report: Inspection was completed by Mike Cooper, Operations Supervisor Melinda Williams, Maintenance Supervisor David Angell, Advanced Maintenance Mechanic. The Facilities Inspection Tool was completed on Tuesday, November 19, 2013.

» Data Almanac

This Data Almanac provides additional information about students, teachers, student performance, accountability, and district expenditures.

STUDENTS AND TEACHERS

Student Enrollment by Ethnicity and Other Characteristics

The ethnicity of our students, estimates of their family income and education level, their English fluency, and their learning-related disabilities.

GROUP	ENROLLMENT
Number of students	654
Black/African American	2%
American Indian or Alaska Native	0%
Asian	69%
Filipino	2%
Hispanic or Latino	13%
Pacific Islander	0%
White (not Hispanic)	14%
Two or more races	0%
Ethnicity not reported	0%
Socioeconomically disadvantaged	20%
English Learners	22%
Students with disabilities	4%

SOURCE: All but the last three lines are from the annual census, CALPADS, October 2012. Data about students who are socioeconomically disadvantaged, English Learners, or learning disabled come from the School Accountability Report Card unit of the California Department of Education.

Student Enrollment by Grade Level

Number of students enrolled in each grade level at our school.

GRADE LEVEL	STUDENTS
Kindergarten	91
Grade 1	78
Grade 2	111
Grade 3	121
Grade 4	126
Grade 5	127
Grade 6	0
Grade 7	0
Grade 8	0
Grade 9	0
Grade 10	0
Grade 11	0
Grade 12	0

Teacher Credentials

The number of teachers assigned to the school with a full credential and without a full credential, for both our school and the district.

TEACHERS	SCHOOL			DISTRICT
	2010–2011	2011–2012	2012–2013	2012–2013
With Full Credential	32	30	28	404
Without Full Credential	1	0	0	1

SOURCE: Information provided by school district.

Physical Fitness

Students in grades five, seven, and nine take the California Fitness Test each year. This test measures students’ aerobic capacity, body composition, muscular strength, endurance, and flexibility using six different tests. The table shows the percentage of students at our school who scored within the “healthy fitness zone” on four, five, and all six tests. More information about [physical fitness testing and standards](#) is available on the CDE Web site.

GRADE LEVEL	PERCENTAGE OF STUDENTS MEETING HEALTHY FITNESS ZONES		
	MET FOUR OR MORE STANDARDS	MET FIVE OR MORE STANDARDS	MET ALL SIX STANDARDS
Grade 5	82%	66%	33%
Grade 7	N/A	N/A	N/A
Grade 9	N/A	N/A	N/A

SOURCE: Physical fitness test data is produced annually as schools test their students on the six Fitnessgram Standards. This information is from the 2012–2013 school year.

Suspensions and Expulsions

At times we find it necessary to suspend students who break school rules. We report only suspensions in which students are sent home for a day or longer. We do not report in-school suspensions, in which students are removed from one or more classes during a single school day. Expulsion is the most serious consequence we can impose. Expelled students are removed from the school permanently and denied the opportunity to continue learning here.

KEY FACTOR	OUR SCHOOL	DISTRICT AVERAGE	STATE AVERAGE
Suspensions per 100 students			
2012–2013	2	1	N/A
2011–2012	2	1	N/A
2010–2011	2	2	5
Expulsions per 100 students			
2012–2013	0	0	N/A
2011–2012	0	0	N/A
2010–2011	0	0	0

SOURCE: Information for the two most recent years provided by the school district. Prior data is from the Consolidated Application published by the California Department of Education. The numbers above are a ratio of suspension or expulsion events, per 100 students enrolled. District and state averages represent elementary schools only.

During the 2012–2013 school year, we had 14 suspension incidents. We had no incidents of expulsion. To make it easy to compare our suspensions and expulsions to those of other schools, we represent these events as a ratio (incidents per 100 students) in this report. Please note that multiple incidents may involve the same student.

STUDENT PERFORMANCE

California Standardized Testing and Reporting Program

The California Standards Tests (CST) show how well students are learning what the state content standards require. The CST include English/language arts and mathematics in grades two through five and science in grade five. We also include results from the California Modified Assessment and California Alternative Performance Assessment (CAPA).

STAR Test Results for All Students: Three-Year Comparison

The percentage of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most current three-year period.

SUBJECT	SCHOOL PERCENT PROFICIENT OR ADVANCED			DISTRICT PERCENT PROFICIENT OR ADVANCED			STATE PERCENT PROFICIENT OR ADVANCED		
	2011	2012	2013	2011	2012	2013	2011	2012	2013
English/ language arts	85%	85%	83%	83%	85%	83%	54%	56%	55%
Mathematics	88%	88%	85%	82%	82%	81%	49%	50%	50%
Science	92%	89%	81%	85%	86%	86%	57%	60%	59%

SOURCE: STAR results, spring 2013 test cycle, as interpreted and published by the CDE unit responsible for School Accountability Report Cards.

STAR Test Results by Student Subgroup: Most Recent Year

The percentage of students, by subgroup, achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most recent testing period.

STUDENT GROUP	STUDENTS SCORING PROFICIENT OR ADVANCED		
	ENGLISH/ LANGUAGE ARTS 2012–2013	MATHEMATICS 2012–2013	SCIENCE 2012–2013
African American	55%	55%	N/A
American Indian or Alaska Native	N/A	N/A	N/A
Asian	90%	95%	86%
Filipino	N/A	N/A	N/A
Hispanic or Latino	52%	53%	36%
Pacific Islander or Native Hawaiian	N/A	N/A	N/A
White (not Hispanic)	83%	72%	90%
Two or more Races	N/A	N/A	N/A
Boys	81%	84%	75%
Girls	86%	87%	88%
Socioeconomically disadvantaged	69%	71%	57%
English Learners	54%	76%	14%
Students with disabilities	51%	47%	N/A
Receives migrant education services	N/A	N/A	N/A

ACCOUNTABILITY

California Academic Performance Index (API)

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. APIs range from 200 to 1000, with a statewide target of 800. Detailed information about the API can be found on the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks: Three-Year Comparison

The state assigns statewide and similar-schools API ranks for all schools. The API ranks range from 1 to 10. A statewide rank of 1 means that the school has an API in the lowest 10 percent of all elementary schools in the state, while a statewide rank of 10 means that the school has an API in the highest 10 percent of all elementary schools in the state. The similar-schools API rank reflects how a school compares with 100 statistically matched schools that have similar teachers and students.

API RANK	2010–2011	2011–2012	2012–2013
Statewide rank	10	10	10
Similar-schools rank	2	1	3

SOURCE: The API Base Report from May 2013.

API Changes by Subgroup: Three-Year Comparison

API changes for all students and student subgroups: the actual API changes in points added or lost for the past three years, and the most recent API. Note: "N/A" means that the student group is not numerically significant.

SUBGROUP	ACTUAL API CHANGE			API
	2010–2011	2011–2012	2012–2013	2012–2013
All students at the school	+1	+7	-15	932
Black/African American	N/A	N/A	N/A	N/A
American Indian or Alaska Native	N/A	N/A	N/A	N/A
Asian	+4	+4	-5	968
Filipino	N/A	N/A	N/A	N/A
Hispanic or Latino	+2	+0	-28	804
Pacific Islander	N/A	N/A	N/A	N/A
White (non Hispanic)	-21	+39	-44	891
Two or more races	N/A	N/A	N/A	N/A
Socioeconomically disadvantaged	+9	+34	-16	875
English Learners	+17	-5	-17	883
Students with disabilities	-29	+47	+20	769

SOURCE: The API Growth Report as released in the Accountability Progress Report in September 2013. Students from all elementary, middle and high schools are included in the district and state columns for comparison.

API Scores by Subgroup

This table includes Academic Performance Index results for our school, our district, and the state.

SUBGROUP	SCHOOL		DISTRICT		STATE	
	NUMBER OF STUDENTS	API	NUMBER OF STUDENTS	API	NUMBER OF STUDENTS	API
All students	469	932	7,359	929	4,655,989	790
Black/African American	10	N/A	143	838	296,463	708
American Indian or Alaska Native	2	N/A	10	N/A	30,394	743
Asian	326	968	4,745	960	406,527	906
Filipino	10	N/A	219	901	121,054	867
Hispanic or Latino	56	804	997	834	2,438,951	744
Pacific Islander	0	N/A	9	N/A	25,351	774
White (non Hispanic)	65	891	1,205	906	1,200,127	853
Two or more races	0	N/A	28	743	125,025	824
Socioeconomically disadvantaged	102	875	1,426	875	2,774,640	743
English Learners	111	883	1,242	867	1,482,316	721
Students with disabilities	33	769	357	724	527,476	615

SOURCE: The API Growth Report as released in the Accountability Progress Report in September 2013. Students from all elementary, middle and high schools are included in the district and state columns for comparison.

Federal Adequate Yearly Progress (AYP) and Intervention Programs

The federal law known as No Child Left Behind requires that all schools and districts meet all three of the following criteria in order to attain Adequate Yearly Progress (AYP):

- (a) a 95-percent participation rate on the state’s tests
- (b) a CDE-mandated percentage of students scoring Proficient or higher on the state’s English/language arts and mathematics tests
- (c) an API of at least 770 or growth of at least one point.

AYP for the District

Whether the district met the federal requirement for AYP overall, and whether the district met each of the AYP criteria.

AYP CRITERIA	DISTRICT
Overall	No
Graduation rate	Yes
Participation rate in English/language arts	Yes
Participation rate in mathematics	Yes
Percent Proficient in English/language arts	No
Percent Proficient in mathematics	No
Met Academic Performance Index (API)	Yes

SOURCE: The AYP Report as released in the Accountability Progress Report in September 2013.

Intervention Program: District Program Improvement (PI)

Districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English/language arts or mathematics) and for each grade span or on the same indicator (API or graduation rate). After entering PI, districts advance to the next level of intervention with each additional year that they do not make AYP.

INDICATOR	DISTRICT
PI stage	2 of 3
The year the district entered PI	2012
Number of schools currently in PI	2
Percentage of schools currently in PI	18%

SOURCE: The Program Improvement Report as released in the Accountability Progress Report in September 2013.

DISTRICT EXPENDITURES

Total expenses include only the costs related to direct educational services to students. This figure does not include food services, land acquisition, new construction, and other expenditures unrelated to core educational purposes. The expenses-per-student figure is calculated by dividing total expenses by the district’s average daily attendance (ADA). More information is available on the [CDE’s Web site](#).

CATEGORY OF EXPENSE	OUR DISTRICT	SIMILAR DISTRICTS	ALL DISTRICTS
FISCAL YEAR 2011–2012			
Total expenses	\$67,856,943	\$32,927,474,550	\$46,420,178,248
Expenses per student	\$7,152	\$8,459	\$8,382
FISCAL YEAR 2010–2011			
Total expenses	\$71,916,755	\$32,778,534,397	\$46,278,595,991
Expenses per student	\$7,596	\$8,407	\$8,323

SOURCE: Fiscal Services Division, California Department of Education.

District Salaries, 2011–2012

This table reports the salaries of teachers and administrators in our district for the 2011–2012 school year. This table compares our average salaries with those in districts like ours, based on both enrollment and the grade level of our students. In addition, we report the percentage of our district’s total budget dedicated to teachers’ and administrators’ salaries. The costs of health insurance, pensions, and other indirect compensation are not included.

SALARY INFORMATION	DISTRICT AVERAGE	STATE AVERAGE
Beginning teacher’s salary	\$48,511	\$40,928
Midrange teacher’s salary	\$74,258	\$64,449
Highest-paid teacher’s salary	\$96,556	\$82,826
Average principal’s salary (elementary school)	\$122,058	\$102,640
Superintendent’s salary	\$201,089	\$183,968
Percentage of budget for teachers’ salaries	47%	40%
Percentage of budget for administrators’ salaries	6%	6%
