

## AUSD LCAP Advisory Group Meeting

February 19, 2014

Themes derived from looking at SARC

Students below the academic middle (2.0 - 2.8 gpa) AVID addresses students at the academic middle which for AUSD is 3.2 gpa (very high) How about those students who don't meet that ?

What about post HS data? What happens to our students when they leave AHS? Do they graduate from the college to which they were accepted? Tap Alumni Association?

How to address our students who are new to the district or new to the country?

How does attendance issues related to subgroup and/or achievement data?

How can we address the needs of the above average student who may have academic gaps in some areas?

Parent connectedness for new students and from out of the country. Help them understand the school system and navigate information that is available.

Support music programs at all levels

How are these goals different from Single Plan? Sites will focus on target groups as before but how do we enhance opportunities for high-achievers, gifted?

Unduplicated pupils.

- EL students seems to stall in middle school

- How do we identify foster youth? Homeless?

- How do we address low-SES? Perhaps with parent education.

- Suggestion: after school interventions for middle achieving elementary students

- Boot camp for middle school (and high school) transition

W.E.B. - like program for EL Students

Improve connectedness for struggling students.
