

AUSD Community Information Night:

# Why Schools Are Changing

Parents, Please Join us for a Free Lecture and Q&A with  
World-Renowned Science Teacher Paul Andersen!

Technology has changed every aspect of our lives. We ask our phones questions and they answer us politely. The world's shared knowledge is available online and lessons stream freely on YouTube. This technological revolution is shaping our schools as well. Schools must create confident students that are comfortable in a new world where applying and evaluating knowledge is more important than rote learning. In light of this changing world, several questions are worth asking:

**Why are schools changing?**

**What will the school of the future look like?**

**How can I help my child be successful in this new school?**

Paul Andersen will address these and many other questions in a lecture at the Performing Arts Center. Paul has been teaching science in Montana for the last twenty years. He has created hundreds of YouTube science tutorials that have been viewed millions of times by students and educators around the world. Paul was the Montana Teacher of the Year and was a finalist for National Teacher of the Year. We are excited about this opportunity and would love to have you join us in welcoming him to Arcadia!

**Thursday, October 8, 2015**

Arcadia Performing Arts Center, 188 Campus Drive, Arcadia

6:30-8:00 p.m., 1 hour Lecture and Q&A to Follow

**FREE**, Limited to First 1,000 on First-Come Basis
